Joint Forces Training Base (JFTB)***

## **Course Description**

This course trains public works managers and supervisors in their critical infrastructure and public services responsibilities and roles as they relate to a community's preparation and response to a weapon of mass destruction (WMD)/terrorism incident. Upon completion of the course, the participants will be able to successfully conduct vulnerability assessments of the jurisdictions critical infrastructure and facilities and effectively contribute to the management of WMD/terrorism incident as a member of the jurisdiction unified command structure. The course delivery methodology consists of lectures, small group discussions, participant activities, case studies, and scenario-driven exercises. The participants conclude the course with an activity designed to improve and enhance the public works emergency response plan.

## **Intended Audience**

Primary audience is public works managers and supervisors; one managerial/supervisor-level participant from each of the following disciplines/services should attend

- Fire/EMS/Hazmat
- Law enforcement (LE)
- Public health (PH)
- Emergency management (EM)
- (Others)

With the exception of the four disciplines/services listed above, participants must hold managerial or supervisory positions within the public works discipline/service.

**All participants must have completed a WMD/terrorism incident awareness course.**

***The training consists of an online prerequisite course: "Public Works: Basic Concepts for WMD Incidents, and three days of classroom training." While the prerequisite online course may be completed any time, participants are encouraged to complete the prerequisite in preparation for the three-day course. Both parts of the training must be completed in order to complete the course. The online course may be accessed as follows:***

**[www.teexwmdcampus.com](http://www.teexwmdcampus.com)**

***"Public Works: Basic Concepts for WMD Incidents"***
